

# TRAIL RATINGS

## EASIEST TRAILS

- Adventure Trail
- Big Ring
- Discovery Trail
- Downtown
- Gopher Trail (Two-way)
- Pioneer Practice Loop

## INTERMEDIATE TRAILS

- Beach Cruiser
- Bearing Straits (Two-way)
- Brake Through (Two-way)
- Bridge The Gap (Two-way)
- Explorer
- Gravy Train (Two-way)
- Juniper
- Lakes Trail
- Lincoln Express (Two-way)
- Manzanita
- Mountain View
- Off the Top
- Paper Route (Two-way)
- Shortcut (Two-way)
- Skills Park
- Timber Ridge
- Up & Over (Two-way)
- Uptown

## ADVANCED TRAILS

- Bridge the Gap (Two-way)
- Lower Kamikaze
- Lower Skid Marks
- Ricochet
- Seven Bridges
- Shotgun
- Richter
- Whitebark
- Up & Over (Two-way)

## EXPERT

- Flow
- Follow Me
- Jill's Jumps
- Kamikaze
- Pipeline
- Recoil
- Twilight Zone
- Upper Skid Marks

## PRO

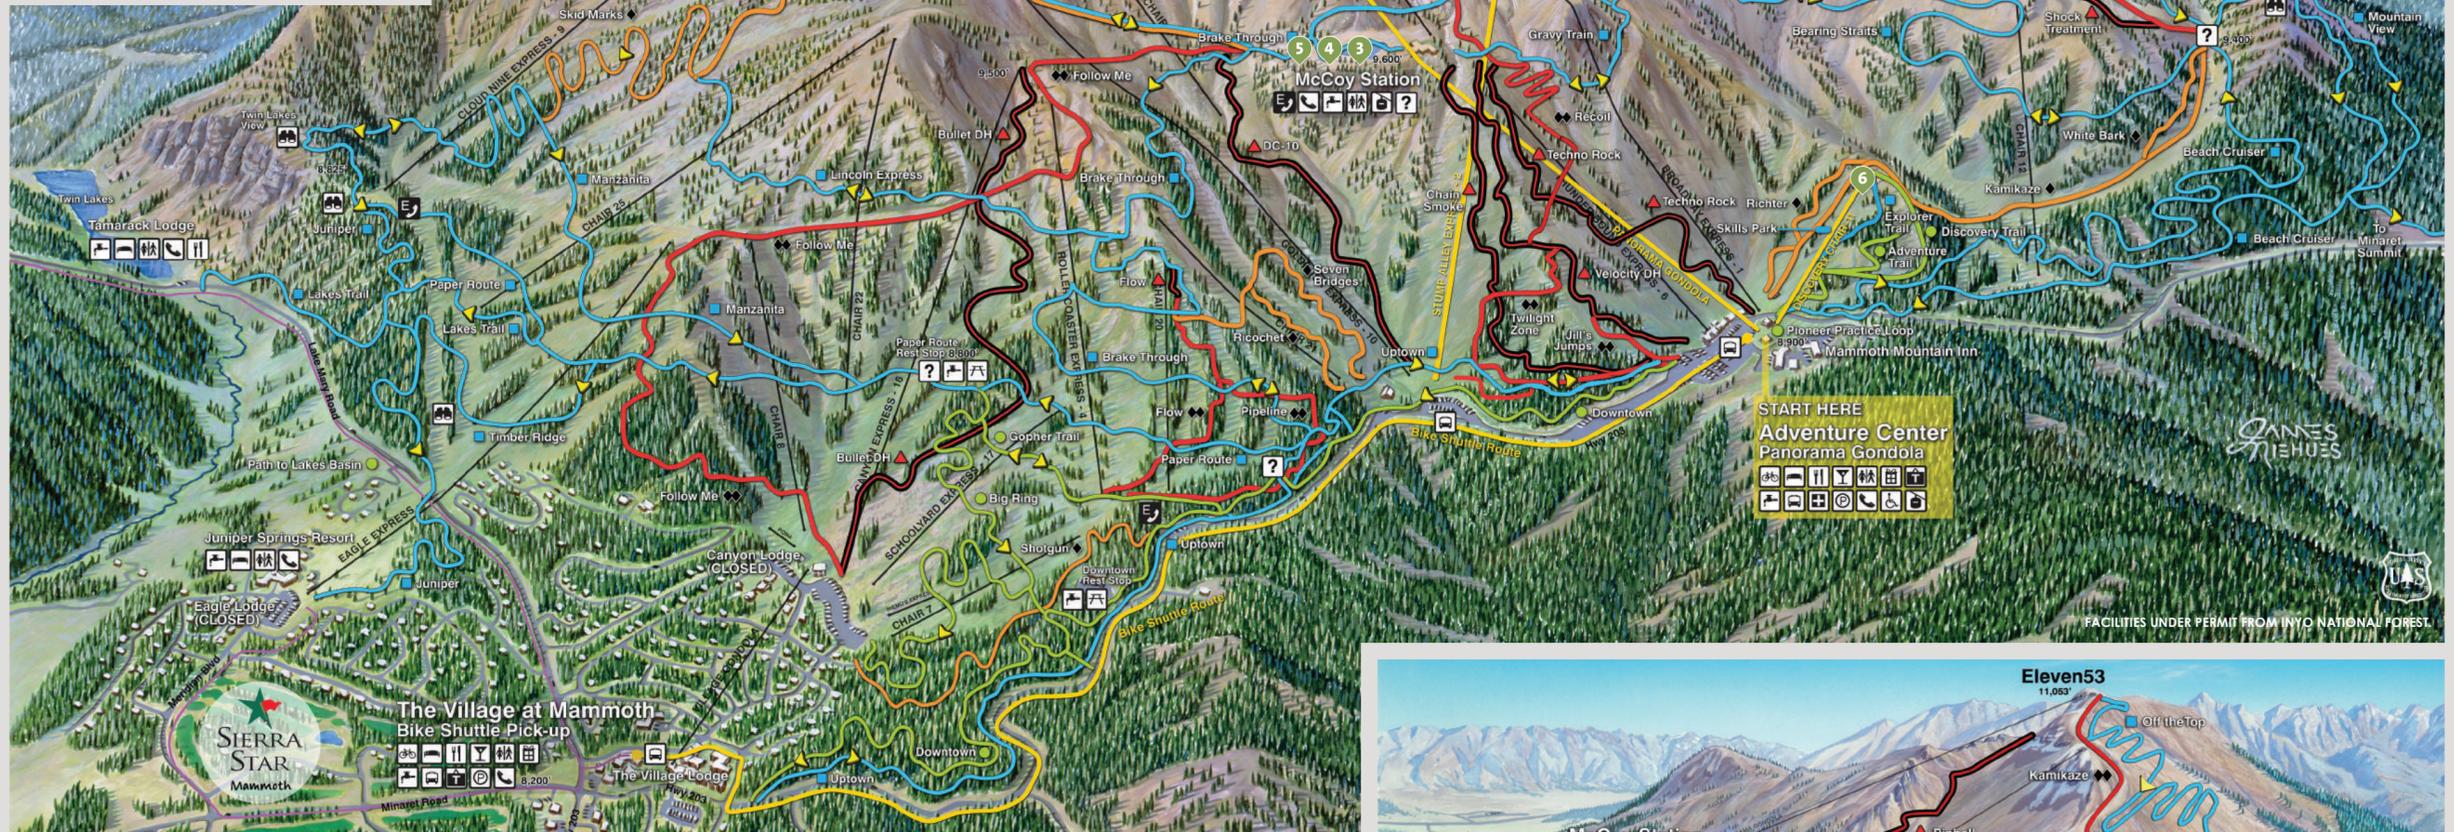

- Bullet DH
- Chain Smoke
- DC-10
- Flow
- Pinball
- Shock Treatment
- Techno Rock
- Velocity DH

# MOUNTAIN FACTS

Top Elevation 11,053 ft / 3,369 m  
 McCoy Station 9,630 ft / 2,935 m  
 Main Lodge 8,909 ft / 2,715 m  
 The Village 8,100 ft / 2,469 m  
 Vertical Rise 3,100 ft / 945 m  
 Acreage 3,500 acres / 1,416 hectares  
 Miles of Single Track 80 mi / 129 km  
 Terrain Breakdown 42 Trails  
 52% Beginner/Intermediate  
 30% Advanced  
 20% Pro

## LOOK FOR THESE SIGNS WHILE RIDING IN THE BIKE PARK:

# SKILL LEVELS

## EASIEST

Recommended for novice riders and kids with basic knowledge of shifting and braking. Medium to wide trails offer smooth surfaces with short sections of uphill. Paver berms, rolling terrain and wide 180° turns exist. Suitable for all types of mountain bikes.

## INTERMEDIATE

Recommended for riders with good bike handling, braking and shifting skills. Trails are challenging and often comprise steep slopes, switchbacks and terrain where some rocks, roots, and loose soil may be present. Cross country or all-mountain bikes recommended.

## ADVANCED

Recommended for riders with advanced bike skills. Variable terrain surfaces require considerable obstacle avoidance of medium rocks and roots through moderate descents and small drops. Numerous man-made features exist, including wall rides, drops, bridges and jumps. All-mountain or downhill bikes recommended with use of protective gear.

## EXPERT

Recommended for highly experienced riders. Terrain consists of rough surfaces with steep, technical, and fast descents. Large rocks and roots exist, and many of these trails offer man-made features throughout, including gap jumps, step-downs, raised wooden trestles and ramps. All gap jumps have an alternate option with a continuous riding surface. Downhill bikes and protective gear strongly recommended.

## PRO

Only for the most skilled riders. These are the most difficult trails featuring highly variable surfaces with steep, technical, and fast descents, and contain a high risk of injury with falls. Large rocks, roots, man-made features, and mandatory drops require riders to constantly avoid obstacles; there are no ride arounds. Modern downhill bikes with full protective equipment is strongly recommended.

EVENTS SUBJECT TO CHANGE.

## HOURS OF OPERATIONS

Bike Park	9:00am–6:00pm
Mountain Center	8:30am–6:00pm
Adventure Center	8:30am–6:00pm
Climb, Zip, Bungee	10:00am–5:00pm
Lower Panorama Gondola	9:00am–5:00pm
Upper Panorama Gondola	9:00am–4:30pm
Chair 2 (Starting July 4, Fri-Sun only)	10:00am–4:00pm
Bike Park Shuttle (Village → Main Lodge)	9:00am–5:30pm

## BIKE PARK RULES

Mammoth works hard to provide you with the best experience possible. With hazards and natural/man-made obstacles existing on the trails, be cautious and use common sense. Follow these rules and tips to ensure maximum safety and enjoyment on the hill:

- Stay in control so you are able to avoid other trail users.
- Ride trails that match your ability.
- Uphill traffic has the right-of-way on a two-way trail.
- On downhill trails, the rider in front has the right-of-way.
- Be courteous to other riders and move out of the way when it is safe to do so.
- Obey all trail markings and signs.
- Do not stop in the middle of a trail or where you cannot be seen from above.
- Do not shortcut trails; please tread lightly. Bike Park passes will be revoked for riding off-trail.
- Protect yourself by wearing gloves and protective clothing. Helmets are required at all times. Temperatures can vary radically with altitude change. Use sunscreen—the sun is more intense at high altitudes.
- Start out easy. Your body can fatigue more quickly at higher elevations.
- Staying hydrated is key to your comfort and safety—drink plenty of fluids.
- Watch out for hikers and motor vehicles.
- Pets are not allowed on bike trails (leashed pets allowed on gondola + hiking trails).
- Seek shelter during thunderstorms. Stay off ridge tops and away from tall trees, lift towers, powerline poles, signposts and large rock outcroppings.
- Riding with a partner or group is strongly encouraged.

**FIRST-AID AND MECHANICAL ASSISTANCE IS AVAILABLE BY CALLING 760.934.0611, OR BY DIALING "0" ON ANY BIKE PARK EMERGENCY PHONE (MARKED ON THE TRAIL MAP).**

## MAP TO PROGRESSION

This trail progression guide can be a useful tool to help you bridge the gap from a beginner rider to a more advanced one, building your skills along the way. Take some laps on each trail below, then move on once you've mastered the obstacles offered on each.

- STEP 1:** ● Discovery Trail → ● Adventure Trail → ● Downtown
- STEP 2:** ● Big Ring → ■ Explorer Trail → ■ Timber Ridge
- STEP 3:** ■ Juniper → ■ Bearing Straits → ■ Off the Top
- STEP 4:** ■ Brake Through → ◆ Richter → ◆ Shotgun

## ICONIC TRAILS EXCEPTIONAL DOWNHILL TRAILS

We are proud of all our trails, but these few seem to have developed a bit of a cult following:

- KAMIKAZE:** This is where it all began. Since 1987 riders have been barreling down the 2,000 vertical foot fire road from the summit to Main Lodge. ◆◆◆
- TWILIGHT ZONE:** Tight paver berms are a tasty start to this flowy adventure down a favorite winter line by the same name. The Deep End and jump line at the bottom help make this one of best trails ever. ◆◆
- PIPELINE:** Dirt jumps, wooden ramps, berms, trestles, gaps and an awesome step-up jump make for a feature-laden venture through the forest. Learn how to whip out your tail, manual over rollers and get a feel for air time. ◆◆
- OFF THE TOP:** Prepare for a visual onslaught as soon as you roll out of the upper gondola. The Mammoth Crest, Minarets, Mt. Ritter and Banner Peak will all be vying for your eyes' attention, so pull off to the side and take it all in. There's no better view in mountain biking. ■

## BEST OF CROSS COUNTRY MILES OF FORESTED SINGLETRACK

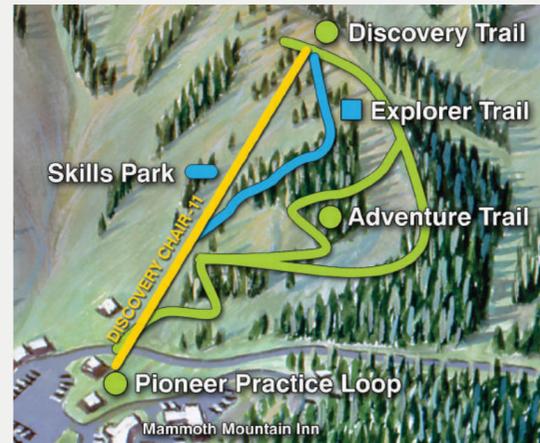

Mammoth has played host to several cross country and endurance events over the years, giving it the reputation of a world-class, pedal-friendly mountain. Grab a few gel packs, fill your water bottles and give these classics a try:

- BEACH CRUISER:** This four-mile intermediate loop starts with some great climbing through large Lodgepole pines, then loops around beautiful Reds Lake before a long roller coaster ride back to the Adventure Center. ■
- MOUNTAIN VIEW:** Catch this often-overlooked gem from the Shortcut/Beach Cruiser junction and prepare for some breathtaking views. ■
- PAPER ROUTE/SKID MARKS/MANZANITA:** A local's favorite and a great place to "lap-out." This rolling loop has incredible diversity; fast downhills, technical sections and even a few switchbacks to climb up on the far end. ■
- UPTOWN:** One of the most enjoyable ways to climb 800 feet on two wheels. ■
- BRAKE THROUGH:** Climb up towards mid-mountain and connect to trails like Flow, Lincoln Express, Ricochet and Seven Bridges. ■
- BEARING STRAIGHTS/GRAY TRAIN:** Fast and flowy at the start, this climb makes its way above the treeline and on to the massive expanse underneath the Paranoid Flats ski chutes. ■

## DISCOVERY ZONE FIRST TIMERS, BEGINNERS & BEYOND

If you're new to mountain biking, this is the place to start. After a few laps on the Pioneer Practice Loop hop on the Discovery Chair for a quick ride to the top of the Discovery Zone—an area dedicated to helping you progress with a smile on our face.

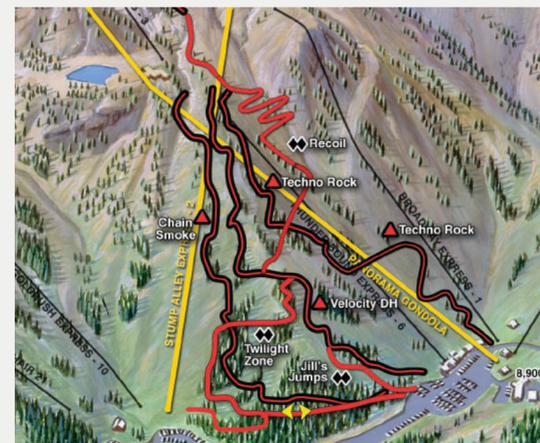

- PIONEER PRACTICE LOOP:** This quarter-mile loop is perfect for getting used to your equipment and preparing for the Discovery Chair. ●
- ADVENTURE AND DISCOVERY TRAILS:** The two best beginner trails anywhere, featuring smooth turns and surfaces. ●
- EXPLORER TRAIL:** Step up your game a bit with banked paver turns, a steeper grade and access to our improved Skills Park. ■
- SKILLS PARK:** Become comfortable with man-made features and work your way up from small drops to intermediate rainbow bridges. ■

## DERAILED PROS & EXPERTS ONLY

Where gravity rules! This zone is a downhiller's paradise featuring six pro and expert level gravity-fed trails. The entire area is easily accessed from the lower gondola. Grab your full face helmet, some body armor, a big bike and get ready to send it.

- RECOIL:** Wide, tall berms and a series of dirt jumps make this a favorite among the freestyle crowd. ◆◆
- CHAIN SMOKE:** Get ready to test the travel on that downhill rig, you're going to need it! ▲
- VELOCITY:** Fast and varied, this technical trail tempts you to let off on those brakes. ▲
- TECHNO ROCK:** Just like the name implies, this is a technical, steep trail loaded with mandatory airs. ▲

## WOOLLY'S SUMMER SATURDAYS

JULY 4–SEPTEMBER 5: Join your favorite mountain-biking mascot every Saturday for a bike ride down the Discovery Trail followed by family fun at the Adventure Center.

## ADVENTURE CENTER AT MAIN LODGE

This is your mountain basecamp: rent bikes, get your ticket, book lessons and guided tours, or get your bike tuned up. If you forgot sunscreen or are looking for a new helmet, the retail shop has you covered.

### ACTIVITIES:

Zipline	Explore Mammoth Experience
Climbing Wall	Shuttle Departure for Reds Meadow / Devils Postpile
Bungee Trampoline	Food, Drinks and Sundek at Yodler
Pioneer Practice Loop	
Scenic Gondola Rides
